

# Model DWO

**PRO Steel**  
Open impeller centrifugal

EBARA International Corporation Standard Pump Division

# Stainless Steel

## B u i l t f o r t h e P r o

EBARA Pro Steel series is designed for dependable performance and rugged continuous duty service. When duty requirements demand material conformance for corrosion resistance, Pro Steel is the choice. This versatile and reliable pump is manufactured by a bulge formed process with component parts made of high quality stainless steel.

The EBARA Pro Steel open impeller, end suction centrifugal pump is engineered for the professional and built for lasting performance and value.

Whenever you need to move aqueous liquids from one place to another – choose EBARA Pro Steel.

## F e a t u r e s

- **Open impeller**
  - suitable for suspended solids in liquid and dirty water; solids handling to  $\frac{3}{4}$ " (spherical)
- **Close coupled design**
  - saves space; simplifies maintenance and installation
- **Stainless steel liquid end components**
  - high quality; corrosion resistance, NPT threaded connections, hose barb connections
- **Back pullout construction**
  - assembly and overhaul of the impeller and seal without distorting suction and discharge connections
- **Top centerline discharge and foot support under casing**
  - ensures self-venting and reduces misalignment from pipe loads
- **High operating efficiency**
  - lowers operating costs
- **High quality mechanical shaft seals and o-rings**
  - available for standard pumping requirements or optional high temperature and chemical duty operation
- **TEFC motors**, IEC motors manufactured by EBARA Corporation.

## D W O S e l e c t i o n C h a r t

## Applications

- Food process
- Bottle washing
- Cooling systems
- Scrubbers
- OEM equipment application
- Spray systems
- Beverage processing
- Pharmaceutical services
- Water reclamation and treatment
- Parts washers
- Paint plants
- Dirty liquid handling
